EDUCATION

MVJ College of Engineering

B.Tech in Computer Science and Engineering

- CGPA: 8.0

Bangalore, Karnataka

Aug 2019 – July 2023

TECHNICAL SKILLS

Languages: Java (Java 8/11/17), JavaScript, TypeScript, SQL

Backend: Spring Boot, Spring MVC, Spring Security, REST APIs, Microservices, Hibernate/JPA, Maven

Frontend: React, HTML5, CSS3, JavaScript, TypeScript

Databases: MySQL, Oracle

Cloud: AWS (Lambda, API Gateway, S3, IAM, CloudWatch)

DevOps & Tools: Git, GitHub Actions, Docker, CI/CD, Agile/Scrum

Testing: JUnit, Mockito, Integration Testing, Vitest

Core Concepts: Data Structures, Algorithms, OOP, Design Patterns, SOLID Principles, Multithreading

PROFESSIONAL EXPERIENCE

Volkswagen Group Technology Solutions India Pvt. Ltd.

Java Full Stack Developer

Project: EMI DB (Emission Database)

Nov 2023 – Present

Bangalore, Karnataka

- Developed and maintained full-stack web applications using **Java Spring Boot** for backend microservices and **React with TypeScript** for frontend interfaces, ensuring high performance and scalability.
- Designed and implemented **RESTful APIs** using Spring Boot with efficient controller, service, and repository layers (MVC pattern), reducing API response times by 30%.
- Built microservices-based architecture using **Spring Boot** and deployed serverless backend functions using **AWS Lambda** integrated with **API Gateway** for scalable, event-driven processing.
- Implemented **Spring Security** for authentication and authorization, including JWT-based token handling and role-based access control (RBAC).
- Utilized **Hibernate/JPA** with **MySQL** for ORM-based data persistence, writing complex JPQL queries and optimizing database performance through indexing strategies.
- Applied **Java 8+ features** including Streams API, Lambda expressions, Optional, and CompletableFuture for cleaner and more efficient code.
- Built responsive and interactive user interfaces using **React** hooks, state management, and modern component patterns for data-heavy dashboards.
- Implemented **Docker** containerization and **CI/CD pipelines** using **GitHub Actions** for automated build, test, and deployment workflows, improving release efficiency.
- Wrote comprehensive unit and integration tests using **JUnit 5** and **Mockito**, achieving 80%+ code coverage across backend services.
- Leveraged **AWS CloudWatch** for monitoring Lambda functions and application logs, enabling proactive issue detection and performance tuning.
- Participated in **Agile/Scrum** ceremonies including sprint planning, daily stand-ups, code reviews, and retrospectives within cross-functional teams.
- Debugged complex issues across the full stack and collaborated with DevOps and QA teams to improve system stability and delivery timelines.

PROJECTS

Crime Reporting Management System | Java, Spring Boot, React, MySQL

Aug 2021 – May 2022

- Designed and developed a full-stack web application for reporting and managing crime records using **Spring Boot** backend and **React** frontend.
- Implemented RESTful API endpoints with proper request validation, exception handling, and HTTP response standards.
- Designed normalized **MySQL** database schemas and implemented CRUD operations using Hibernate ORM.
- Enhanced system usability by 20% through responsive design and optimizing UI layouts for different screen sizes using HTML5 and CSS3.

INTERNSHIPS

Volkswagen Group Technology Solutions India Pvt. Ltd.

3 months

Java Developer Intern – E-commerce Web Application

Bangalore, Karnataka

- Contributed to backend development using Java and Spring Boot for an internal e-commerce platform.
- Assisted in writing REST APIs, integrating with frontend modules, and performing unit testing using JUnit.

CERTIFICATIONS

Java Certification – JSpiders (6 months) | Core Java, OOP, Collections, Multithreading, Exception Handling

SQL Certification – HackerRank (1 month) | Joins, Aggregations, Subqueries, Stored Procedures

SOFT SKILLS

Teamwork, Communication, Problem Solving, Adaptability, Continuous Learning

INTERESTS

Open Source Contribution, Competitive Coding, Banking Technology, Financial Systems, Music, Sports
